## 2018 California Medicare Part D Benchmark Plans

- The 5 Medicare Part D plans listed below have basic benefits with monthly premiums below the CA benchmark of \$35.51.
- If you have Medicare and full Medi-Cal (with no Share of Cost), or you qualify for full Extra Help (also known as the Low-Income Subsidy):
  - You don't have to pay a premium or deductible if you enroll in one of these plans. You may have a copayment for each prescription, up to \$3.35 for generic drugs and up to \$8.35 for brand name drugs.
  - You may change plans once a month, anytime during the year.
  - You may enroll in a Part D plan not listed below, but may have to pay a premium and/or deductible.
- If your income is low but you don't qualify for full Medi-Cal, you may qualify for Extra Help which helps pay for your Medicare Part D plan, or the Medicare Savings Program which helps pay your Medicare medical costs (Parts A & B), and also gives you a level of "Extra Help."
