

2021 Medicare Advantage Plan Comparison Chart for Alameda County

~ Rev 11/05/20 ~

Medicare Advantage Plans contract with the Centers for Medicare and Medicaid Services (CMS) to provide all the benefits covered by Medicare and some additional benefits. In exchange, CMS (Medicare) pays the plan a fixed fee per member, per month. This amount varies by region and is also adjusted for the individual member's age, gender and health condition. **To enroll in a Medicare Advantage plan, a person must have both Medicare Parts A & B. The person must also live within the plan's service area.** Medicare Advantage plans must accept anybody on Medicare, including those who are under age 65 on Medicare through disability, regardless of their health condition. In 2021, for the first time, people with ESRD can also enroll in Medicare Advantage plans.

Medicare HMOs are one type of Medicare Advantage (MA) plan. When joining a Medicare HMO, beneficiaries do not give up their Medicare coverage; rather they agree to receive it through the plan's network of providers. A member must choose a Primary Care Physician and receive a referral to see a specialist. The Medicare HMO will *not* pay for services received outside the plan's network unless it is urgent or emergency care. In those circumstances, the member should notify the plan as soon as possible. The cost-sharing varies from plan to plan. Premiums, co-payments, and extra benefits can differ. The Annual Out of Pocket Maximum listed for each plan applies to all cost-sharing *except* plan premiums and prescription drug co-pays. In 2021, two Medicare HMO plans in Alameda County do not include the Medicare Part D prescription drug benefit. When people join an HMO *without* drug coverage, they are opting out of Part D. *Enrolling in a stand-alone Part D plan will automatically trigger disenrollment from the Medicare Advantage Plan.*

A Medicare PPO is another type of Medicare Advantage (MA) plan. A PPO allows members to seek care outside of the plan's network of providers, however higher out-of-pocket expenses will apply.

Medicare Special Needs Plans are another type of Medicare Advantage plan. They are designed for people on Medicare and Medi-Cal (duals), those with certain chronic conditions, or those who reside in nursing homes. They all must include Part D prescription drug coverage and they have a responsibility to coordinate benefits and care for their members.

In 2021, there are four Special Needs Plans in Alameda County. Three are for people with Medicare and full Medi-Cal (duals, with no share of cost). These are called D-SNPS and they have no premiums or co-payments. The other Special Needs Plan is for people with specific chronic or disabling conditions, such as cardiovascular disorders. It is called a C-SNP and certain cost-sharing applies. In addition, five of the Medicare Advantage Plans *act like* Special Needs plans for duals in that the premiums and cost-sharing are waived for people with Medicare and full Medi-Cal: *Anthem MediBlue Coordination Plus, Health Net Seniority Plus Sapphire Premier, Health Net Seniority Plus Sapphire Premier II, Imperial Traditional Plus, and United Health Care Medicare Complete Assure.* These plans are called "look-alike" D-SNPS. Anyone on Medicare can join them but those without full Medi-Cal will pay significant cost-sharing expenses. These "look-alike" plans do not have a responsibility to coordinate members' Medicare and Medi-Cal benefits.

People who have both Medicare and Medi-Cal and those with the Low-Income Subsidy (Extra Help) for Part D can enroll, disenroll or change plans on quarterly basis. The change will become effective the first of the following month, except in the last quarter of the year (October through December), when it becomes effective on January 1.

In the fall of 2020, Medicare beneficiaries can enroll, disenroll or change plans during the **Medicare Annual Enrollment Period, from October 15 through December 7. Changes take effect on January 1, 2021.** In 2021, members have one more opportunity to make a change: they can leave their MA plan and change back to Original Medicare during the **Medicare Advantage Open Enrollment Period, from Jan 1 through March 31.** This right only applies to those who begin the year enrolled in a Medicare Advantage plan. They can leave their MA plan and enroll in a stand-alone Part D plan or they can change to another Medicare Advantage plan. If someone returns to Original Medicare during this period, they will have through March 31 to join a stand-alone Medicare Prescription Drug Plan. There are no corresponding guarantee issue rights to get a Medigap plan without a health screening although people can apply for a Medigap at any time but must answer health screening questions.

ABOUT THIS CHART

This Comparison Chart is a summary and highlights the areas where the Medicare Advantage plans may differ in benefits. For preventive care benefits covered by Medicare, please see the back of this chart. Also, on the last page is an explanation of the Star Ratings provided by Medicare.

The information in this chart applies to the individual plans under Medicare only. Group coverage (i.e. employer-sponsored plans) may be very different and should be evaluated and compared to the individual plans. Converting an employer group plan from primary to secondary coverage when retiring and going on Medicare may offer different benefits and premiums. This chart is also available at www.lashicap.org/hicap.

Medicare Coverage for Preventive Care Benefits

To help people with Medicare stay healthy, Medicare covers certain screening tests, supplies, and teaching services. People with Original Medicare can receive most of these preventive benefits without having to pay coinsurance or the Part B deductible (\$198 in 2020). Medicare Advantage plans also cannot charge cost sharing (meaning no deductible, no copayment or coinsurance) for most in-network preventive benefits. These preventive benefits available at no cost include:

- Abdominal Aortic Aneurysm Screening: one per lifetime
- Alcohol Misuse Screening and Counseling: one screening per year and up to 4 counseling sessions per year
- Annual Wellness Visit: one per year
- Bone Mass Measurement: one every 2 years
- Breast Cancer Screening: one per year
- Cardiovascular (Heart Disease) Screening and Therapy: one screening every 5 years and one counseling session (with primary care physician) per year
- Cervical and Vaginal Cancer Screening (Pap Test and Pelvic Exam): one every 2 years or one a year if at high risk
- Colorectal Cancer Screening: frequency varies by type of test
- Depression Screening: one per year
- Diabetes Screening: 2 per year if at risk
- Flu Shot: one per year
- Hepatitis B Shots: as needed depending on health status
- HIV Screening: one per year
- Medical Nutrition Therapy: as needed depending on health status
- Obesity Screening and Counseling: one screening per year and up to 22 counseling sessions per year
- Pneumococcal Shots: one per lifetime
- Prostate Cancer Screening: one per year for age 50 and over
- Sexually Transmitted Infections (STI) Screening & Counseling: one screening per year and 2 counseling sessions (with primary care physician) per year
- Tobacco-use Cessation Counseling (if not diagnosed with related illness): up to 8 sessions per year
- "Welcome to Medicare" Exam: one in the year following enrollment into Part B

The following preventive benefits are subject to cost-sharing under Original Medicare (the Part B deductible and 20% co-insurance). Medicare Advantage plans may charge for these services:

- Barium Enema Screening: one every 4 years for age 50 and over
- Diabetes Self-Management Training Services: as ordered by doctor
- Glaucoma Screening: one per year if at high risk
- Prostate Cancer Screening (digital rectal exam): one per year for age 50 and over
- Tobacco-use Cessation Counseling (if diagnosed with related illness): up to 8 sessions per year

For more information on preventive care coverage, you can refer to the Medicare and You 2021 Handbook. Call 1-800-Medicare to request a copy or visit: www.medicare.gov/medicare-and-you.

Star Ratings:

This summary rating gives an overall score of the Medicare Advantage plan's quality and performance on up to 46 unique quality and performance factors that fall into 5 categories:

- Staying healthy: screenings, tests, and vaccines. Includes whether members got various screening tests, vaccines, and other check-ups that help them stay healthy.
- Managing chronic (long-term) conditions. Includes how often members with different conditions got certain tests and treatments that help manage their condition.
- Member experience with the health plan. Includes ratings of member satisfaction with the plan.
- Member complaints and changes in the health plan's performance: Includes how often Medicare found problems with the plan and how often members had problems with the plan. Includes how much the plan's performance has improved (if at all) over time.
- Health plan customer service. Includes how well the plan handles member appeals.

This information is gathered from several different sources. In some cases it is based on member surveys, information from clinicians, or information from plans. In other cases, it is based on results from Medicare's regular monitoring activities. (Explanation is from <https://www.medicare.gov/find-a-plan/staticpages/rating/planrating-help.aspx>)
