Medicare Supplement (Medigap) Plans

Basic Benefits

All Medigap plans include the following Basic Benefits:

- Hospitalization: Part A coinsurance for days 61 to 150, plus 365 extra days
- Medical expenses: Part B coinsurance – generally 20% of the Medicare approved amount
- Blood: First 3 pints of blood each year

The amount of coverage may vary with the plan you choose. For example, some plans pay 100% toward the Basic Benefits and other plans may pay less.

What types of Medigap policies will insurance companies sell?

Insurance companies selling Medigap policies are required to make Plan A available, but they don't have to offer every letter policy. Each insurance company decides which Medigap policies it wants to sell (other than Plan A).

Rating Methodology

Each insurance company decides how it will set the price, or premium for its Medigap policies. Medigap policies can be priced or "rated" in three ways:

Attained Age (AA): The premium is based on the current age and automatically increases, as the person grows older. Typically, these plans appear less expensive at younger ages but can cost considerably more in later years.

Issue Age (IA): The premium is based upon the age of the person when the policy is purchased but does not increase automatically as the person ages. The premiums can only increase if it is raised for all similar plans in the geographic area.

Community-Rated (CR): There is no age rating. The premium can only increase if it is raised for all similar plans in the geographic area.

Definitions

Open Enrollment: A period during which the insurance company cannot impose health screening.

Guarantee Issue: A period during which the insurance company cannot impose health screening or a waiting period for pre-existing conditions.

Waiting Period for Pre-Existing Condition: A period of six months or less during which a company can refuse to pay claims for a health condition that was treated in the six months prior to purchasing a policy. In most cases a person can use previous health coverage to shorten or eliminate the waiting period.
